

What is the CBRNE Resilience Cluster Europe?

The CBRNE Resilience Cluster Europe, led by Privanova, is a collaborative platform uniting EU-funded projects addressing Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) threats. Centred around the GROUNDUP Project (GA 101214954) and SPARKUP Project (GA 101217399), the cluster fosters cross-project cooperation through the exchange of knowledge, resources, and best practices. By uniting diverse stakeholders, from research institutions and policy makers to end-users: law enforcement, first responders, and the corresponding industry ecosystem, it aims to build a stronger, more coordinated European response to CBRNE challenges.

**Funded by
the European Union**

Objectives

- Support law enforcement, first responders, and industry partners in tackling CBRNE threats through webinars and workshops for cluster members.
- Boost dissemination by showcasing cluster projects on our website and featuring partner articles in our newsletter.
- Align recommendations to the European Commission, law enforcement, and stakeholders for greater coherence.
- Explore interoperability between technical platforms to enhance collaboration and response.
- Identify synergies, research opportunities, and joint exploitation to strengthen CBRNE resilience across Europe.

Key Activities

- Organising regular meetings and workshops to discuss current CBRNE topics, share members updates, best practices, technological developments, methodologies, and explore cooperation opportunities.
- Initiating joint projects to leverage cluster members' collective expertise and resources, aiming for innovative solutions to CBRNE challenges.
- Engaging in discussions on CBRNE policies, laws, and regulations to provide informed insights that influence decision-making.
- Sharing results of collaborations, research findings, and policy recommendations via the CBRNE Resilience Cluster Europe Newsletter to reach wider audiences and stakeholders.

How to join?

- Interested parties are encouraged to contact the Cluster Coordination Team at tina@privanova.com.
- Submit a brief project description, outlining objectives, outcomes, and relevance to CBRNE topics.
- Join an introductory meeting with the Coordination Team to explore synergies, collaboration opportunities, and how your project can contribute to and benefit from the cluster.

Who should join?

- EU-funded projects addressing topics of interest to the CBRNE community.
- Join the LEA Projects Cluster for a safer digital world! Email tina@privanova.com for more information.
